Illness Due to Flu:

The H1N1 flu may affect classes this semester. If any of us develop flu-like symptoms, we are being advised to stay home until the fever has subsided for 24 hours (without fever-reducing medications). If you exhibit symptoms, please do not come to class. Notify me of your status via e-mail at kelly@ccri.edu and we will communicate through the medium we establish for the class. We will work together to ensure that course instruction and work is completed for the semester.

The Centers for Disease Control and Prevention have posted simple methods to avoid transmission of illness. These include covering your mouth or nose when coughing or sneezing; frequently washing your hands; avoiding touching your eyes, nose and mouth; and staying home when sick. For more information, visit http://www.cdc.gov/flu/protect/habits.htm. Updated information also will be provided to the CCRI community via http://www.ccri.edu/avp-students/swinefluinfo.shtml as well as MyCCRI e-mail and announcement listings.
