Solving Tugboat Problem

Due: April 15

Meme: 

You will be graded on the following criteria:

1. Team design that is aesthetically useful and practical. 30%
2. A report including a drawing of your boat with all dimensions noted. 20%
3. A complete tabulation of all the forces acting on the boat and components in order, and principal force on each motor. 50%

Extra 30% on the basis that the boat is able to transport the most possible amount of weight and length of motor that has been introduced.
